

AYUSH SACHDEVA

Software Development Intern

☎ +91-8423586636 ✉ sachdevaayush0904@gmail.com  linkedin.com/in/ayushsachdeva
 github.com/developer-ayushsachdeva

Summary

B.Tech Information Technology student with a Minor in Project Management and hands-on experience building backend and AI-based applications. Skilled in Java, Python, REST API development, problem-solving, and building practical software solutions. Actively solving DSA problems on LeetCode while developing real-world projects. Seeking an SDE internship to apply my technical skills and contribute to scalable, reliable software systems.

Education

B.Tech. Information Technology | Minor in Project Management

2024 – 2028

Galgotias College of Engineering and Technology (AKTU)

CGPA: 8.0 / 10

Skills

Languages: Java, Python

Core: OOP, DBMS, Operating Systems

Backend: FastAPI, REST APIs, JWT, WebSockets

Frontend: React.js, HTML, CSS

Databases: PostgreSQL, MySQL

AI/ML: NLP, LLMs

Tools: Git, GitHub, Postman

Projects

AI Interview Platform | *React, FastAPI, Python, Groq API*

- Built and deployed a voice-based AI interview platform using React, FastAPI, Python, and Groq API, generating personalized interviews from candidate resumes, target roles, and job descriptions.
- Developed FastAPI REST APIs to manage interview sessions, question generation, candidate responses, and progression through the interview workflow.
- Integrated Speech-to-Text and Text-to-Speech to enable real-time voice interaction between candidates and the AI interviewer.
- Implemented an automated question-response-evaluation pipeline that processes candidate answers and generates a final interview report.

Movie Genre Classification | *Python NLP Machine Learning*

- Developed a machine learning project to classify movies into genres using natural language processing techniques.
- Processed and prepared movie-related text data for feature extraction and model training.
- Applied NLP and machine learning techniques to identify patterns in movie descriptions and predict relevant genres.
- Used Python-based tools to build and evaluate the classification workflow.

Certifications & Learning

- Java Programming Fundamentals – Certified, May 2026
- Oracle: Administration Workshop – Infosys Springboard, 2026
- Data Structures and Algorithms – 200 Days in 2026 Badge
- Python Programming – Self-Learning

Leadership & Experience

Technical Lead – GeeksForGeeks CampusBody

Galgotias College of Engineering and Technology

- Contributed to planning and coordination of technical activities and initiatives within the organization.
- Collaborated with team members to execute technical activities and support project-related tasks.
- Applied technical problem-solving and communication skills while working with the team.
